SINE WAVE INVERTER CLEVER series

TECHNICAL SPECIFICATIONS

clever - 300W; 500W; 700W; 1KW
Input voltage: 175 - 265VAC
Input frequency: 50Hz± 5Hz
Inversion voltage: 230VAC± 3%
DC voltage: 300W; 500W - 12VDC; 700W, 1KW 24VDC
Output waveform: Pure sine wave
THD: < 3%
Transfer time: < 4ms Automatic transfer
Recharge current: Average charge current:
8A (300 - 500W); 10A (700 - 1KW).
Max charge current: 10A (300 - 500W) 18A (700 - 1KW).
CPU controls automatic charge.
Overload protection: Lock the machine automatically
when overload over 100-120% for 25seconds;
lock the machine automatically when overload
over 120-200% for 1 second; lock the machine
automatically when Overload over 200% for
0.1 second
Dimension (mm): 300W; 500W; 700W - 372*122*203
1KW-405*145*220
Weight: 300W; 500W - 7.6kg; 700W-10kg; 1KW-10.5kg;

>>APPLICATIONS

Heating Equipment
Pumps
Solars
Home Office
Camping
Power Tools
Move light at any place
Audio/Video
Portable Lighting
Emergency power
Small store on road
