SINE WAVE INVERTER STEADY series

TECHNICAL SPECIFICATIONS

steady - 1,5KW; 2KW; 2,5KW
Input voltage: 175 - 265VAC
Input frequency: 50Hz± 5Hz
Inversion voltage: 230VAC± 2%
DC voltage: 1,5KW 24VDC;
2KW, 2,5KW 48VDC
Output waveform: Pure sine wave
THD: < 3%
Transfer time: < 4ms Automatic transfer
Recharge current:
Average charge current: 10A;
Max charge current: 18A;
CPU controls automatic charge.
Overload protection: Lock the machine automatically
when overload over 100-120% for 25seconds;
lock the machine automatically when overload
over 120-200% for 1 second; lock the machine
automatically when Overload over 200% for
0.1 second
Dimension (mm): 1,5KW - 405*145*220;
2KW; 2,5KW - 460*194*305;
Weight: 1,5KW-18kg;
2KW-23,4kg; 2,5KW-28kg;

>>APPLICATIONS

Heating Equipment
Pumps
Solars
Home Office
Camping
Power Tools
Move light at any place
Audio/Video
Portable Lighting
Emergency power
Small store on road
